Lancaster Farming

VOL. 6. NO. 16 | Lancaster Farming, Saturday, March 11, 1961 | $2 Per Year

ACCEPTING CONGRATULATIONS from their many friends and associates at a banquet in their honor Wednesday night are Mr. and Mrs Harry Sloat. Sloat retired as Associate County Agent on February 1, after 40 years of Agricultural Extension work in Lancaster County. Approximately 300 persons were at the banquet. —L. F. Photo

County Says "Thank You" 300 Farmers Honor Sloat

"I didn't know so many nice things could be said about a person in such a short time." said Harry S Sloat Wednesday night.

Speaking in a voice filled with emotion, the retired county agent was expressing his gratitude to the three hundred friends and former associates who had come to honor him for his 40 years of service to agriculture.

"Sloatie", as he is familiarly known in the county, was referring to the many personal testimonials from farmers and extension workers he has helped and advised through his years in the agricultural extension service.

Wednesday night they came to his banquet. Extension specialists from Pennsylvania State University, county agents and former county agents from several counties, and the great and small in farming in the Garden Spot county.

They paid homage to their friend and counselor for his unselfish devotion to his work. This spirit of unselfishness was evident in the remarks Sloat directed to the group. He gave credit to the cooperation and assistance of his wife, the former Emma L. Carey, who he said, "was my strength through all these 40 years."

During one stay in the hospital, Sloat said, Mrs. Sloat visited him every day. "I didn't find out till later that she did this despite the fact that there were four children at home with the whooping cough."

Recalling the 40 years of achievements, Harold R McCulloch of the Pennsylvania State University Extension Service summed up the feelings of the group when he said," "Someone recently asked me, Who is going to replace Harry Sloat?". You don't replace 40 years of experience overnight. You hire someone to work where Harry Sloat has been working and hope that someday he will turn out to be another Harry Sloat."

McCulloch paid tribute to Sloat for his ability to understand and work with people. "It is a rare thing to find a man like Sloat with his knowledge of agriculture

auffman Herd Is Tops D.H.I.A. in January

The 23 head of registered Holsteins in the herd of ert Kauffman, Manheim R1, posted the highest butterfat rage in the Red Rose Rairy Herd Improvement Associa- during the month of January.

ccording to records re- ed this week, the Kauff- herd gave an average, cow, of 1,408 pounds of with a test of 4.2 for a erfat average of 60 lbs. the runner up spot was herd of C. Kreider and C. Akers, Quarryville R1. This mixed herd of 29 cows milked 1,532 pounds with a 3.8 test and averaged 59 lbs. of butterfat per cow. Curtis Akers is the former head tester in the association.

Highest 305 day lactation was completed by "Burke", a registered Holstein in the herd of Titus M. Hurst, Lititz R2. Burke produced a total of 24.021 pounds of milk,

Two From Co. On Co-op Board

Two Lancaster County farmers were elected to 3-year terms on the board of directors of the Eastern States Farmers' Exchange at the cooperative's annual meeting last Saturday.

B. Snavely Garber, Willow Street R2 was returned to the board while John Melhorn, Mount Joy, was elected a director.

B. SNAVELY GARBER

Melhorn, who operates a 300 acre diversified farm operation, has been a member of Eastern States since 1928 and has served as county representative since 1931.

Tobacco Seed To Be Treated

Tobacco seed will be cleaned and treated at a series of meetings next week, the Lancaster County Extension Service announced Friday

Members of the County Agent's staff will be on hand with seed cleaner and chemicals to treat seed for county growers at the following locations on Tuesday, March 14:

9:30 a.m. Farm of Clyde K. Eshelman, Washington Boro R1, ¼ mi. Southeast of Letort.

2:00 p.m. Basement of Witmer fire hall, Witmer.

7:30 p.m. Farm of Clayton Sangrey, Lititz R2, farm located between Lititz and Manheim near Erb's church.

At the above meetings extension personnel will clean and treat up to 1 qt. of cleaned seed per grower.

The seeds will be treated with silver nitrate and given one rinsing.

A nominal charge will be made to cover the cost of materials, the extension office announced.

"Green" Eggs Will Promote Hen Industry

Saint Patrick's green will be the color of the hard cooked eggs given out by the Lancaster County Poultry Association next Friday.

In an effort to promote the use of eggs during the month of March (National Egg Month) the county association is cooperating with the Lancaster Sertoma Club in distributing free eggs on the square in Lancaster on St. Patrick's day. In keeping with the theme of the day, the eggs will be dyed a bright green. Preparation of the eggs will be done by Spring Glen Farm Kitchen, Ephrata.

In addition to the free eggs and egg sandwiches on the square, the association, working with the chef at the Stevens House, will provide a special egg menu for the members of the Sertoma Club at their noon luncheon. Each diner will consume seven eggs in special dishes planned for the meal.

Guests at the luncheon will include, Mayor Thomas Monaghan, County Commissioners, City Council members and officials of the Pennsylvania Poultry Federation.

Eugene Cassel, a member of the Poultry Assn. is in charge of the promotion committee.

Swine Assn. Sale Date Set

The date of the Annual Hog Show and Sale sponsored by the Lancaster County Swine Producers Association in March 15

Judging of the high quality hogs will take place at 9 00 a.m. with auction of the entries beginning at 1 p m. in the Lancaster Stock Yards.

The sale will be conducted by the Lancaster Livestock Exchange with Abe Diffenbach as auctioneer.

Milking Systems Demonstrated At Dairy Day

Ivan E Parkin, Extension Dairy Specialist from Pennsylvania State University, Friday told farmers milking injury is one of the most important causes of mastitis in dairy cattle.

Speaking at the annual Lancaster County Dairy Day in the Leola Memorial fire hall, Parkin said there are two things that cause milking injury: defective milking systems and improper management of milking machines,, or a combination of the two.

On hand to demonstrate Penn State's new mobile milking machine, Parkin showed dairymen the difference between a good milking

(Turn to page 11)

FIVE - DAY WEATHER FORECAST

Saturday - Wednesday

Temperatures for the next five days will average near normal range of 31 at night to 50 in the afternoon. Milder today, seasonal Sunday and Tuesday with cooler Monday and Wednesday. Precipitation may average 0.2 to 0.6 in. falling as showers late on Tuesday or early Wednesday.

At Lancaster Yards

Trading Active, Steady

Cattle 3150 compared with 2465 head last week The supply includes 45 per cent slaughter steers and 40 percent stockers and feeders. Trading was moderately active. Compared to last week's close slaughter steers were steady. Cows 25-50 higher Bulls sold 50 lower. Stockers and feeders were steady.

Slaughter steers: A few lots and loads 1000-1150 lb. average to high Choice 27 25-27.75, lot Prime 1150 lb. 28., load mostly Prime 1100 lb. 28.10, the bulk of the Choice steers sold at 26.00-27.25, Good to low Choice 23 75-26., with Standard selling down to 21.50.

Heifers: A few lots 750-900 lb Good grade 23-24 00 Two loads mixed steers and heifers 925 lb. Good to mostly low Choice sold at 26 25.

Cows: Cutter and Utility 16.-17 75, Canners and low Cutters made 14.50-16 00, shelly Canners sold down to 12.50.

Stockers and feeders: Good and Choice 750-950 lb. feeders 25-27., Medium & Good 21.50-26 00, few loads Good and Choice 650-750 lb. 26.00-27. Lot Fancy 400 lb. stock calves sold for 30 00.

Calves 750 compared to 621 head last week. Trading moderately active Vealers steady. Good and Choice vealers ranged from 27-34, Choice and Prime 34-40 00, standard and low Good 19.-26.00, while Utility sold down to 16.

Hogs 1625 compared to 1926 head last week. Barraws and gilts steady to 25 lower. Sows steady. Trading moderately active.

Barrows and gilts: U.S. 1 2 190-225 lb. 19.50-20.25, No. 1 190-225 lb. 20.50-21.50, mostly 21.00 down, 1-3 190-235 lb. sold at 18.75-19.25, 240-260 lb. 18.25-18 75.

Sows: U S. 1-3 mostly 2-3, 300-500 lb 12.50-16.00.

Sheep 225 compared with 253 head last week. Wooled slaughter lambs steady, trading moderately active.

Slaughter lambs: Good and Choice 75-105 lb. ranged from 18 50-20.50, Choice and prime 20 50-22 50. Utility & low Good 16.-16 50.

Chicago Cattle

Weight, Grade In Mixed Trend

Slaughter steers choice and below under 1450 lbs. steady to 50 higher with the greatest advance on those weighing under 1100 lbs Wgts. over 1450 lbs weak to 50 lower, prime steers all wgts. 25-75 lower, heifers 25-50 higher, cows 50-75 higher, bulls steady to 50 higher, vealers and stockers and feeders steady.

Two loads prime 1250 and 1338 lb. slaughter steers at 28 50 early but only one load prime 1292 lbs at 28.25 at midweek. Bulk prime and mixed choice and prime loads 1000-1400 lbs. at 26-75-27.75. Bulk choice 900-1400 lbs. 25-27 with few loads high choice 975-1150 lbs. 27.25-27.50.

Good steers 22.50-24 50. Mostly 23 up at the close. Load utility and commercial 1550 lb. steers 20.

Mixed choice and prime slaughter heifers 26-26 50, largely 26 25 up late with bulk choice 25-25.75, several loads high choice 950-1075 lbs. 26, mixed good and choice 24-25, good 21 50-24. Utility and commercial bulls 17-20.50 mostly 17.50 up.

Good and choice vealers 25-31, three loads choice 875 lb. feeding steers 24 50, several loads and lots good and mixed good and choice 800-950 lb feeding steers 22-23-50, few medium and good, these wgts. 21-22, part load medium 650 lb. stock heifers 19.75.

Vintage Livestock

Slaughter Steers Are 50 Higher

CATTLE: 449 Compared with last week's market, slaughter steers at March 7 auction at Vintage were 50 higher Cows 25-50 highers, bulls 50 lower.

Few lots high-Choice and Prime 950-1100 lb slaughter steers 27.50-28.10. bulk of the Choice 26.25-27 35, Good to low-Choice 24.00-26.25, Standard 22.00-24.00. Few lots Choice and Prime 850-900 lb heifers 25.00-26.60, Standard and Good 20.00-24-50.

Cutter and Utility cows 15.75-17.00, Canners & low-Cutters 14 25-15 75, shelly Canners down to 12 50. Utility and Commercial bulls 19 25-22 00, few Good grade 22.00-22 85.

CALVES. 389 Choice and Prime vealers steady. Good grade and below 1 00-1 50 higher. Good and Choice vealers 28 50-35 00, Choice and Prime 34 00-40.00, Standard and low-Good 22.00-29. Utility down to 19 00.

HOGS: 150 Barrows and gilts steady. Few lots U. S 1-2 190-215 lb. barrows and gilts 19.25-19 50 1-3 180-210 lbs 18 60-19.00, lot 239 lb. 1-3, 18 50, lot Medium 171 lbs. 18.00.

SHEEP. 10. Not enough on sale to establish a market.

FRUIT, VEGETABLE OUTLOOK GOOD

Loren D. Tukey, researcher in horticulture at the Pennsylvania State University, claims there is a need for increased production of fruits and vegetables in Pennsylvania. A member of the horticultural adjustment committee in the College of Agriculture, Dr. Tukey says increased population and some increased per capita use of fruits and vegetables explains the need for more production.

New Holland

Steers Steady To Strong

Cattle receipts at the March 9 auction at the New Holland sales stable included 955 head Compared with last week's market, slaughter steers were generally steady; Spots strong. Cows 25 higher; bulls 50 lower.

A few lots of choice and prime at 1,035 to 1,155 lbs. brought 27.50 to 28 10. The bulk of the choice steers made 26-27.50. A few weighing up to 1,350 pounds were back to 25 50. Good & low choice sold at 24-26. Standard down to 22.

A few lots of good and choice heifers made 22-24 with standard and good heifers at 19-22.

Cutter and utility cows made 16-17.50 while canners and low cutters were 14.75-16. Shelly canners sold down to 13.

Utility and commercial bulls brought 19-22, mostly 21.50 down. A few good grade bulls up to 24.60

Calves 275. Vealers fully 1 00 higher Good and choice vealers made 28-35. Choice and prime were 35-42 50 with a few head up to 43 50. Standard and low good made 22-28 with utility down to 19.

Top fresh cows sold $10 00 to $25 00 per head higher at the March 8 sale of dairy cattle. Other kinds sold steady at the sale which had receipts of 116 cows, eight stock bulls and 28 stock heifers

Fresh cows. Holsteins $300-405, Guernseys - $175-240, others - $175-280. Stock bulls - $95-210. Stock heifers $85-175.

The horse market continued very active and fully steady at the March 6 sale Receipts included 272 head of horses, ponies and mules

Draft horses - pair - $300-575, singles - $135-240 Mule pairs - $300-550, singles $140-255 Ponies, mares $110-135, Geldings - $45-100 Riding horses - $110-240 Driving horses - $110-225 Killers - 8½ to 9½ cents

"HORSE SENSE" FROM HORSE POWER

For light tractor loads, up to 66 per cent greater engine efficiency is possible with reduced engine speeds This was reported recently by researchers in agricultural engineering at Ohio State University. The engineers say the improvement in efficiency with light tractor loads was due primarily to "reduced frictional horsepower loss"

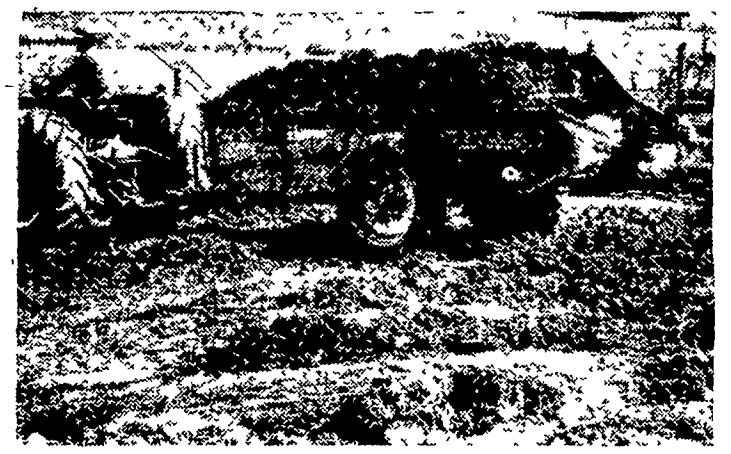
NEW
95-BUSHEL SPREADER...


made with a LASTING difference
Heap high the loads and spread 'em fast with the new Allis-Chalmers 95-bushel, ground-drive spreader. It's made to *last* in places where spreaders usually wear out first.
Special acid-resistant steel is used wherever damage might occur. Steel pintle drive chain comes as regular equipment. Treated tongue-in-groove lumber on a bridge-type frame resists warp and rot, stays tight for longer life. Heavy-duty axle carries heavy loads without twisting or bending on rough or frozen fields.
Come in today to see how this new Allis-Chalmers spreader will last and last... for you.
Ask us about the Allis-Chalmers plan to finance your time purchase of farm equipment.

Lanc. Poultry Center

Broilers Drop ¼ Cent

Broiler prices dropped about a quarter of a cent from the previous week at the March 9 auction at the Lancaster Poultry Center. Prices have slipped during each of the past three sales from the high of 20.36 at the February 16 sale.

A total of 153,885 broilers in 32 lots crossed the block at prices of 17 1 to 20.0 for an unofficial average of 18 0. Three lots of leghorn fowl including 1,800 head brought 12.6 to 12.4 while 900 heavy fowl in two lots made 24 to 24 4.

Six lots of roasters and six lots of pullets including 3,825 head ranged from 26 to 31 4. One lot of silver cross pullets brought 31.0 for the 375 head.

The complete sale offered 20,285 head in 52 lots and sold 173,785 head in 50 lots. Following is the complete sale with lot number, seller, grower in parenthesis, amount and breed, age in weeks and days, buyer and price.

TREND—Trading a bit more active with offerings light at the moment, with many midwest shipments held up by recent heavy snowfall.

Copyrighted 1960 By Urner-Barry Co.

Fluid Milk

Production Still On The Increase

Production of fluid milk was reported increased in all areas. Bottling damand was generally unchanged from last week though the Philadelphia area reported a larger consumption as compared with last year.

Surplus over class one needs moved to manufacturing plants and separators with offerings plentiful for needs in most areas.

Wholesale selling price for bottling quality milk at New York was $5.00 to $5.05, mostly $5.05, per 40 quart unit.

Doctor: "How is the patient who swallowed the half dollar?"

Nurse: "No change yet."

CUT FLOWERS, POTTED PLANTS STUDIED

CORN:

One application of aldrin protects corn against all major soil insects for an entire growing season

To get bigger corn yields from every acre, *soil insects must be controlled.*

At least 18 different soil insects attack corn. They interfere with germination, and cause spotty stands.

Aldrin controls them all

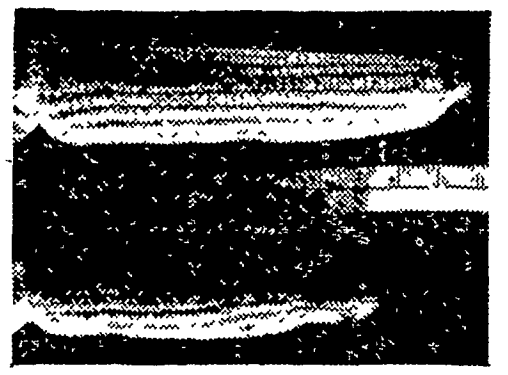
One application of aldrin controls them for an entire season. It can be applied either as an over-all treatment before planting or as a row treatment at planting.

Aldrin protected corn has consistently out-yielded unprotected corn—enough, in fact, to pay for the application at least three times over.

Where insect infestations were severe, aldrin has made the difference between a fifty-bushel yield and a hundred-bushel yield.

Use aldrin this year to insure a better stand, advance maturity date, help prevent lodging, and improve quality.

Aldrin is available from your local insecticide dealer under well-known brand names. It comes in liquid, wettable powder and granular forms—and in some areas, in fertilizer mixes.



Corn from adjacent rows. The ear *at the top* from an aldrin protected row. The ear *below* from an unprotected row.

FROM WHERE WE STAND -

"Might As Well Feed It To The Hogs"

Dad looked at the milk check and said, "Might as well feed it to the pigs."

That was way back before the days of marketing cooperatives and federal orders and a lot of other regulations designed to keep the bottom from dropping out of the dairy business.

But there are still a lot of us around who can remember when there was so much milk that there was a serious talk of pouring half the production each day down the drain.

For several months now, every report of fluid milk production has carried the words "seasonal rise", "slight increase", "production well maintained to slightly higher", or some other phrase meaning the same thing.

Along with these reports have come reports a steady decrease in the average price as a smaller and smaller percentage of total production goes all the way to consumer as fluid milk.

Add to all these signs the obvious fact that the peak production months in the east are almost upon us, and the lesson should be plain enough for all to see.

To beat the squeeze of falling prices too many dairymen will add more cattle. The additions will be a temporary relief to the individual dairyman, but the total problem will be aggravated.

At a banquet recently, a farmer at our table said, "We are in competition with each other. The big farmer who wants to get bigger is making the competition so strong he will push some of the smaller farmers out of business.

Much of what he said is true. Farmers are in competition with each other, but the smaller farmer who is efficient has many advantages over his larger competitor in this day of high labor costs.

We do not believe the only answer to lowered selling prices is a greater volume of sales. It reminds us of the story of the merchant who said he was losing money on every item he sold and the only way he could stay in business was to increase his volume.

There are rough days ahead for the dairymen, and there will be those who will make the situation worse for all through their fight for self preservation. With falling beef prices, the urge to cull the dairy herd will be hampered still more, but a cull cow is a cull cow in times of good prices or bad.

Whole milk is an excellent hog feed, but it is mighty expensive. We hope farmers do not again have to say, "Might as well feed it to the pigs."

At least that's how it looks from where we stand.

Washing or Wishing

We pride ourselves on being a forward-looking people. We see a time in which life will be happier, healthier, richer and more productive. We hope that the world in which our children will live out their lives will be a better one than ours.

As John Galsworthy has said, "If you do not think about the future you can not have one."

We are told in a report from an association of electric companies that electrical living is still only in its infancy. The report predicts such things as an appliance which will program a whole week's menus, remove foods from a freezer compartment at the proper time, cook the food and serve it to the family, all at the direction of an electrical computer. Of course the food will be served on disposable dishes which will go out with the garbage.

After a whole list of such marvels the report concludes, "Fantastic? Yes, but these things are only a few of the wonders that will become commonplace in the era of electric living that lies ahead."

At the same time it is the part of wisdom to look back—if only to recall some of the obstacles our forebears had to overcome to give us the kind of life we now enjoy.

The lady of the house might like to paste the following beside the automatic washer-dried. It is supposedly part of the advice a mountaineer gave her newly-married daughter. Perhaps, amid the chuckle you get from it, you might remember this was serious business not so many years ago—and be grateful in 1961

"BUILD A FIRE in the back yard to het kettle of rain water. Set tubs so smoke wont blow in eyes if wind is peart. Shave one hole cake lie sope in bilin water.

"Sort things, make three piles, 1 pile white, 1 pile cullord, 1 pile britches and rags. Stir flour in cold water to smooth, then thin down with bilin water. Rub dirty spots on board, scrub hard, then bile. Rub cullord, but dont bile; just rench and starch. Take white things out of kettle with broom handle then rench, blew and starch.

"Spread tee towels on grass, hang old rags on fense, scrub porch with sopy water. Pour rench water in flower bed. Turn tubs upside down.

"Go put on clean dress, smooth hair with side combs. Brew cup of tea, set and rest and rock a spell and count your blessings".

Cost Of Living

The greatest economic danger to America is that we may mistake inflation for prosperity. We have rising prosperity only when the dollar we have will buy more rather than less.

For twenty years we had more and more dollars that would buy less and less A dollar will buy less than 50 percent as much today as it did in 1941 It will buy less next year than it does now

I predict that the cost of living will continue to increase, that the purchasing power of the dollar will continue to decline, and that we will have more inflation

A little over two years ago in addressing the Bankers Club of Cincinnati, Ohio, I said "I can predict positively and without equivocation that there will be more inflation ten years from now than there is today, and also more twenty years from now than today."

Can Inflation be Stopped?

At the time I gave this address the index of consumer prices, as prepared by the U.S. Department of Labor, was 123 8%. In December, 1960, the index had increased to 125 5%. The President, the Administration and the Congress have not been able to prevent this continued increase.

It is impossible, I told the Bankers Club, to elect and retain an Administration that will not take inflationary steps, and if the Administration refused to take inflationary steps Congress would enact laws including inflationary provisions

This Administration has proposed—and Congress may pass—legislation to increase minimum wages and apply the minimum to millions of additional workers. This would contribute to higher costs and another increase in prices. In short, inflation.

Inflation was definitely encouraged by the Roosevelt Administration, and the two administrations that followed have not stopped it, I said. "Congress has not and

Home of the Spirit

Lesson for March 12, 1961

"YOU know him," said Jesus to his friends, speaking of the Holy Spirit. Could he say as much to the average Christian today? On the contrary, the ordinary Christian nowadays finds the Holy Spirit a hard problem. His notions about the Spirit are very hazy. His immediate reaction to Jesus' words, "You know him," would be a denial and a question: "No, I don't know him. How can I know him?"

Dr. Foreman

One reason why we are confused and uncertain about the Holy Spirit may be that we start thinking at the wrong point. We wonder what "Spirit" means, and what "Holy" means. Since they are two X's in our minds, of course the Holy Spirit means nothing definite either. A better place to start is not with some definition, but to look at what Jesus had to say about this. We must remember that this "You know him" was spoken before Pentecost. There had been no "descent of the Spirit" on the first Christians.

As a matter of history, many persons have claimed to possess, or to be possessed by, the Holy Spirit; but not all these persons have been acknowledged by the Church. In I John 4:1 (an epistle written by the author of the 4th Gospel) Christians are told not to believe every spirit but to test them to see whether they are truly "of God." The test spoken of in the Epistle is suggested already in the Gospel: Is the alleged "Spirit" in harmony with Christ? Does the Spirit "confess" Jesus, is the Spirit "in the name" of Jesus? There have been in American history several self-styled prophets or Bearers of the Spirit, but the church has not accepted them just on their own say-so; in (though it's a feeble false pro that can't get somebody to be him!) the church has rejected nearly all these prophets so-ca largely because their lives not Christlike and many of teachings contradicted or distor the teachings of Christ.

"Spirit of Truth"

Another sign by which we know the Holy Spirit is the sign of truth. God does not spot lies. "I am so full of the S that I can't sin any more," a told the writer of these lines years ago. Well, that man, claiming to be full of the Sp first coveted and then ran a with another man's wife. He convinced her, poor soul, that he was filled with the Holy S anything he wanted to do wou free from sin. A Christian better sense would have a rig suspect a man who claimed it is right to break the Ten C mandments and to do what God condemned as sin. So when pe who claim to be "spiritual" m Bible interpretations that t and destroy what the Bible a ally teaches; when they m prophecies that do not come when they claim to have the tral place in God's kingdom w rightly belongs only to Ch then we have every reason know that whatever they ma filled with, nonsense, madne wickedness, they are not with the Spirit of Truth.

Conditions

The Christian church early in its existence could that the Holy Spirit is nothing than God. In other words, the time of the Trinity meets us already in these simple yet found sentences from Jesus' supper with his friends. If it s too hard to understand, remem three simple truths. One If could understand all about Trinity, you would know all a God—and only God can do Two: You will never be any m God than you are to the Spirit, no nearer than you ar Christ. Three: If Father, Son Holy Spirit are to "make o home" with you, there are conditions. First is love and second (a test of the fir obedience God is Lord of all but he comes to make his h only where the door of h obedience is open to him

(Based on our ... Division of ... nal Council of ... in the U. S. A. ... Community Press Service)

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

TO CULL LOW PRODUCERS — Early spring is a good time to inspect the milking herd and cull out the low producers At this time of the year milk is plentiful and the price is usually the lowest Low producers not only contribute to the surplus but may be reducing the net profit from the herd. A close inspection of production records will tell whether or not they are paying their own way.

TO CHECK RODENT-DAMAGED SHRUBS — During the past winter constant snow cover may have caused some tree and shrub damage on many properties from both mice and rabbits. Without any exposed vegetation these animals were forced to eat the bark from trees and shrubs If the entire limb or tree trunk, has been girdled by chewing off of the bark then it will be difficult to keep the tree alive; in most cases the cambium layer has been destroyed and therefore, the lifeline from the roots to the limbs has been destroyed However, in cases of less damage or just partly chewed we suggest that the owner paint the damaged area with several coats of orange shellac at weekly intervals This should protect the tree and hasten healing

TO CREEP FEED LAMBS AND PIGS—In the case of small pigs the heavier at weaning time the quicker they will be ready to market; with lambs for the Easter market the better the gains now the more weight there will be to sell at a season when the prices are quite favorable. Small feed troughs for the pigs and feed racks for the lambs where the older animals cannot reach, that contain special rations at all times for these young animals should pay dividends

TO CARE FOR GDOWING HEIFERS — Dairymen should realize the importance of getting rapid growth and good size to the heifers in order to have a better herd of replacement cattle. In the spring of the year these heifers are often neglected and allowed to slow down in growth Under ten months of age the calves should get special grain daily along with quality hay in ample amounts, some silage may be fed. After they approach the yearling stage, free access to quality hay with silage fed daily and limited grain will keep them in good condition. Every effort should be made to develop big, growthy heifers with a lot of body capacity

will not take steps to stop it.

Wage-Price Spiral

"One of the principal causes of the increase in the cost of living has been what economists refer to as 'the wage-price spiral.'

"I am absolutely convinced that neither Government, Congress nor business will take the steps that are necessary to stop the wage-price spiral which is causing prices to reach such absurd figures."

A congressional committee is now hearing testimony on the Administration proposal to raise the minimum wage from $1 to $1 25 an hour. It is not our purpose to discuss the pros and cons of this legislation . . . whether the advantages outweigh the disadvantages.

It is quite likely, however, that if enacted it will play a part in increasing the cost of living. For example, we are informed that in some cases the increased wage cost will be greater than the employer's present profit. If this is true, the company will be forced to increase the prices of its products.

RURAL RHYTHMS

SPELLING LESSON

By: Carol Dean Huber

F—is for the Farm of course, and so it starts this rhyme;
A—is for the Animals you find there all the time,
R—is for the Rural Route, an address that is good,
M—is for the Market where the farmer sell us food;
I—is Independence - so easy here to find;
N—is for the Neighbors; they are good and kind,
G—stands for God, who makes the crops to grow
The word I'm spelling, I am sure, even children know.
Farming is the good life—the only life for me.
In the open country is the only place to be.

Lancaster County

tomato grower sets record . . .

RAYMOND H. WITMER, Mount Joy R. D. #1, recorded the highest record of any Campbell Soup Company grower in the state of Pennsylvania for class #3 acreage (five to ten acres) during 1960.

YIELD RECORD

5.8 Acres Planted

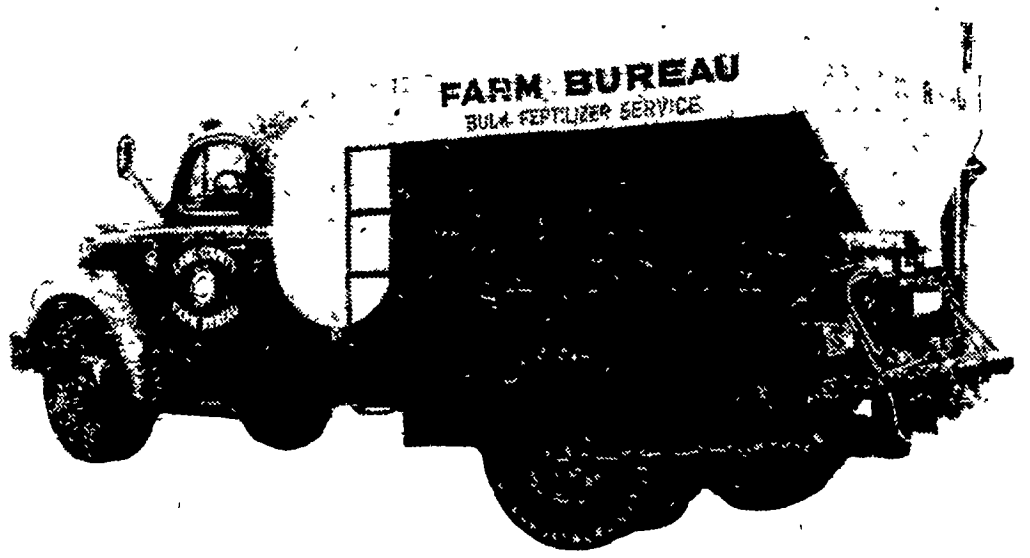
27.59 Tons Yield Per Acre

Average Grade—71.5% US #1's, 24.3% US #2's, 4.2% Culls.

Harold Geib, Farm Bureau Fieldman, left, discusses this year's fertilizer program with Raymond Witmer, center, and son, Leslie.

FERTILIZER PROGRAM

Raymond plowed down 12 tons of cow manure per acre and 700 pounds of FARM BUREAU 0-20-20 Fertilizer which was applied with FARM BUREAU'S Modern Bulk Fertilizer Spreader Unit. He was especially impressed with the service and efficiency in the accurate application of bulk fertilizer for his tomato crop . . . he saved time, labor & money, too. Of course, Raymond will use Farm Bureau's Bulk Fertilizer Spreading Program again this year. Matter of fact, Leslie, Raymond's son, has also ordered bulk fertilizer from Farm Bureau for his tomato crop.



Farm Bureau BULK FERTILIZER SERVICE

We do the work for you. Farm Bureau will spread your fertilizer with modern, accurate equipment & trained personnel Spreading is adjusted to fit your soil needs . . at any rate per acre. By using high analysis plant food and a small spreading unit we avoid unnecessary packing of your soil

START TODAY . . PROFIT THE FARM BUREAU WAY!

Qualified FIELDMEN are anxious to serve and assist you in designing a PROFITABLE SOILS & CROPS PROGRAM.

766 pounds butterfat, with a 3 2 per cent fat.

A registered Guernsey in the herd of Raymond L. and Louise Witmer, Willow Street R1 ,was second with 14,950 pounds of milk testing 5.0 per cent for a total of 754 pounds of fat. Three other cows in the Witmer herd completed lactations with records of over 500 pounds of butterfat Mary B had 611 pounds; Sue had 553 lbs. and Duet produced 524 lbs during the first 305 days of lactation.

Only one other cow in the association produced over 700 pounds of butterfat during the 305 days ending in January A registered Holstein in the herd of C. J. Kurtz made 704 pounds of fat in 17 440 pounds of milk with a 4.0 test

Twenty herds, in addition to the Kauffman and the Kreider and Akers herds, made an average of 50 or more pounds of butterfat per cow during the month.

Bruk Vil Patsy Rose Lucifer owned by Isaac M Brubaker, Lititz, produced 15,320 lbs. milk and 539 lbs. of butterfat in 305 days on twice daily milking as a 7-year-old.

Additional Funds Made Available To Farmers Home Administration

An additional $50 million has been made available to the Farmers Home Administration for farm housing loans, Mr Richard Hoover, the agency's county supervisor announced today.

He said that the new loan funds assure an adequate supply of this type of credit for eligible farm families during the balance of the fiscal year Loans made so far this year plus those being processed had practically exhausted the funds previously available.

Farm housing loans are made throughout the rural areas of the United States The loans provide farm families with an opportunity to acquire an adequate house and efficient service buildings

Application for farm housing loans may be made at the local office of the Farmers Home Administration, Mr Hoover said The loans bear 4 per cent interest and are repayable over periods up to 33 years

The major demand in Lancaster County is for loans to construct and modernize farm homes, and most of the funds are used for new construction

Improvements financed with loans include the installation of central heating and pressure water supply systems, the addition of bath rooms and the modernization of kitchens

Many local farmers also use the loans to adjust their service buildings to the changing requirements of agriculture A frequent example in this area. Mr. Hoover said, is the conversion of obsolete dairy facilities by the construction of modern milking facilities, milk houses and silos.

To be eligible a farmer must own a farm that will annually produce for sale or home use at least $400 worth of commodities based on 1944 prices and be of sufficient value to adequately secure the loan

5000 Heifers Sought For Breed Promotion

Pennsylvania's quota in the national drive for 5000 Jersey Heifers for milk promotion is 197 head, Edison Osborne, the state chairman of the enterprise has announced

Osborne, the well known breeder of Jersey cattle and owner of Cornwall Farm at Peach Bottom, Lancaster County, urged every breeder of Jerseys, purebred or grade, to join in the drive to tell the public the story of Jersey milk

The "Kickoff" meeting for the heifer enterprise in district nine of Pennsylvania is scheduled for 8 00 p m. on March 24 at the Southeastern Pennsylvania Artificial Breeders Cooperative stud barns on route 230 west of Lancaster The ninth district includes the counties of York, Cumberland, Dauphin, Berks and Lancaster

Heifer enterprise is a part of the larger undertaking, The All-Jersey Program, designed to improve the position of Jersey cattle owners by increasing the demand for the product of the Jersey cow

Heifers pledged to the project will be assembled at a central point, Osborne said, where they will be sold privately or at auction if volume warrants Receipts from the project will go toward promotion of Jersey cattle and their production

ASC To Begin Grain Survey

A survey of all farms in Lancaster County which produce feed grains will get underway in the next day or so, according to Landis G. Becker, Chairman of the Lancaster County Agricultural Stabilization and Conservation Committee

The survey is being conducted throughout the "major feed grain producing area" (which includes Lancaster County) as an advance step in connection with proposed feed grain programs now under discussion The proposals would include adjusting the 1961 acreages of corn and other feed grains.

To put such a program into operation for 1961 crops in a manner which would be fair to all growers, accurate data must be obtained immediately for the possible establishment of feed grain base acreages for all farms in the major feed grain producing area

Such information will include the acreage history of corn, grain sorghum, barley, and oats, as well s the acreage devoted to other crops and land uses, for all farms in the area where one or more of these feed grains were produced within the past 2 years

More Proof . . . . It Pays to Feed PURINA

261 pigs weaned from 29 first-litter gilts!

Last February, March, and April, 29 first-litter gilts farrowed at Willow Glen Farm, R D 1, Strasburg, Pa These gilts **weaned** an average of 9 pigs apiece . big, healthy pigs which averaged 2 62 pounds at birth'

Owners John Henkel and Joe Little have followed the Purina Program since establishing their purebred Yorkshire herd. Twice in 1960 their farm was selected as a public demonstration of efficient hog production in Pennsylvania. Their complete record-keeping system and testing for feed efficiency, rate of gain and carcass evaluation proves they're on the right track for supplying herd-improving seed stock to commercial herds in the state

"From what our records show, we believe Pennsylvania farmers are in an excellent position to 'cash in' on pork production," say these young partners "Good stock and a good feeding and marketing program looks like a sound investment for many years to come'

John Henkel, left and Joe Little, owners, of Willow Glen Farm, R. D. 1, Strasburg.

WE CAN HELP YOU PLAN A SOUND FEEDING AND MANAGEMENT PROGRAM, BACKED BY PURINA RESEARCH FOR YOUR HERD.

MILL FARM POPPY, the registered Guernsey cow which recently broke all records for the Guernsey breed is owned by George T. Pack, Lauxmont Farms, Wrightsville. The Excellent cow averaged over 81 pounds of milk through the 365 days of her record

York Co. Cow Sets Record

Mill Farm Poppy, a registered Guernsey cow, owned by George T. Pack, Lauxmont Farms, Wrightsville, has broken all milk production records for the Guernsey breed, the breed association revealed this week

"Poppy's" record of 29665 pounds of milk, and 1190 pounds fat, covers 365 days, three times a day milking, in the Advanced Registry Division of Official Testing, or an average of over 81 pounds of milk a day.

Her last milking, taken at 6:00 P. M., Friday, February 24th, produced 19.2 pounds, for a total of 61.7 pounds on the last day of record. Her highest day was 107 during the record In early October, she suffered a severe case of bloat, drastically cutting her production.

Classified Excellent three times, the last at 93 points, "Poppy" nears the ultimate in dairy breeding

● Co-op

(From page 1)

Garber, who has been a member of the cooperative since he began farming in 1937, operates a 130-acre farm where he raises vegetablse and maintains a 90-head herd of registered Guernsey cattle

Both Melhorn and Garber are active in other cooperative and farming enterprises.

In its business report, the exchange reported a business volume of $91 601,186 last year—$1,646,048 higher than 1959. The total included the first full fiscal year of egg marketing for New England patrons, general manager W. D. Milsop said

Mildred E. Pike, treasurer, reported patrons' savings last year were $2,839,778. One million dollars will be retained for capital requirements and the remaining $1,839,778 will be returned to members as cash refunds, she said.

Feed continued to lead purchases, at 67 per cent of the total distribution dollar.

Farm Women 6 Visit No. 14

Society of Farm Women number six has made plans to visit with Society number 14 on March 15 in the home of Mrs Lloyd Harnish, Willow Street R1, it was announced at the last meeting.

At the March 4 meeting at the home of Mrs. Ray Hixon the group voted to donate $10 00 to the Lancaster Co-Society for Crippled Children and another $10 00 to Heart Haven The society also sent a donation to the committee for the testimonial dinner to honor retired county agent Harry S Sloat.

Plans were made to serve a turkey dinner at Wyeth Laboratories, Marietta on March 29.

A total of 175 cancer dressings have been made by the society.

During the program, Mrs. Raymond B Heisey spoke on the subject, "The Art of Living Abundantly", and played a piano solo

Hostesses were Mrs. Ray Hixon, Mrs Clayton Risser, Mrs. Merle Ruhl and Mrs. Charles Nissley. Mrs Risser was in charge of Devotions.

For the Farm Wife and Family

The Indispensible Egg

By Mrs. Richard C. Spence

March, traditionally "Egg Month," may be the time to check your usual ways of cooking eggs to be sure of giving attention to details important in making this protein food appetizing and attractive. Low heat is the secret for tender texture.

To fry: heat fat in a fry pan Break eggs into a saucer, then slip them into the fat Sprinkle with salt and pepper Cook over low heat, basting with the fat, until whites are firm Or, if you prefer eggs with less fat, "fry-poach" them· Melt a little fat in the pan—just enough to grease the bottom—and hold over low heat. Add eggs, one at a time, then pour in 2 to 3 tablespoons of water, cover the pan tight, and steam until eggs are done

To poach: have salted water boiling gently in a shallow pan. Break eggs into a saucer, one at a time, and slip them into the water Reheat the water to simmering, take pan from heat, and cover Let stand 5 minutes, or until eggs are as firm as desired

..To cook eggs in the shell: wash them, put into a pan, cover completely with cold water. For soft-cooked eggs, heat water slowly to simmering. Cover pan and remove from heat. Let stand 3 to 5 minutes, the longer time for the larger number of eggs. For hard-cooked eggs, heat water to simmering and simmer 20 to 25 minutes Serve eggs hot, or place them at once under cold running water until chilled through.

* * *

Served in any one of hundreds of ways—as the main dish or as an important, perfectly blended ingredient in other prepared foods—eggs are the housewife's true "menu friend'. Here are just a few tasty dishes to help solve the ever present menu problem.

EGG CHOWDER

2 cups cubed (about 1-inch size) raw potatoes
1 can (13 oz.) concentrated chicken broth
⅓ cup butter or margarine
¼ cup flour
1 tall can (14½ oz.) evaporated milk diluted with 1 can water
1 can (1 lb.) kernel corn with liquid
1 can (1 lb) green beans with liquid
1 small onion, sliced and separated into rings
1 jar (2 ounce) pimiento, diced
¼ teaspoon pepper
1 small bay leaf
¾ cup chopped or diced Cheddar cheese
9 hard-cooked eggs, sliced

Simmer potatoes in chicken broth, covered, until just tender, about 10 minutes. Meanwhile, in a large kettle or saucepan (about 3-quart size), melt butter or margarine over low heat. Stir in flour and cook until frothy Add milk and water all at once. Increase heat and cook. stirring constantly, until smooth and thickened thruout. Add corn and beans, onion, cooked potatoes (with any leftover broth), pimiento, pepper and bay leaf.

Simmer about 15 minutes to blend flavors; remove bay leaf. Add cheese and eggs just before serving. (One egg slice may be set aside and floated on top of each serving.) Season with salt and pepper to taste. Serve with assorted crisp breadstuffs. Makes about 11 cups—six servings as a main dish.

* * *

EGG SALAD IN ITALIAN BREAD BOAT

1-pound loaf Italian bread
½ cup milk
1 egg
1 clove garlic, crushed
¾ teaspoon salt
¼ teaspoon ground pepper
½ teaspoon ground coriander
1½ cups diced celer
⅓ cup diced green stuffed olives, or green pepper
½ cup mayonnaise or salad dressing
2 hard-cooked eggs, sliced
Melted butter or margarine
6 hard-cooked eggs, coarsely chopped

Prepare "boat"; Cut top crust off bread and reserve for cover. Scoop out the soft crumbs to half the depth of the loaf. Mark "boat" into desired number of servings, cutting down almost to bottom crust. Cut top crust into same number of pieces. Prepare Egg Salad: Soften about 2 cups of the crumbs in the milk. Blend in the egg, garlic, salt, pepper, and coriander. Add chopped eggs, cel-

CHEESE CAKE

3⅓ cups crushed graham crackers crumbs
⅔ cup butter or margarine
⅔ cup granulated sugar
7 egg whites
2 8-oz. packages soft cream cheese
2 tablespoons butter or margarine
2 tablespoons cornstarch
⅔ cup granulated sugar
2 cups buttermilk
7 egg yolks, slightly beaten
2 teaspoons vanilla extract

Mix crumbs with ⅔ cup of butter and ⅔ cup sugar till blended. Reserve 1 cup of crumbs. Turn rest into 13"x 9"x2" baking pan; with back of spoon, press crumbs evenly into pan, making bottom slightly thicker than sides.

Start heating oven to 400 degrees Beat egg whites until stiff but not dry. With electric mixer (or with spoon) beat cream cheese with 2 tablespoons of butter, cornstarch, ⅔ cup sugar and ¼ cup buttermilk until light and fluffy. Add rest of buttermilk, yolks, and vanilla. Beat until smooth. Fold in beaten egg whites. Pour into prepared pan. Sprinkle reserved crumbs on top. Bake 25 minutes; reduce heat to 325 degrees; bake 15 minutes longer or until silver knife inserted in center comes out clean. Cool thoroughly. Refrigerate.

DESSERT TREAT PUMPKIN CAKE

½ cup butter or margarine
1 cup brown sugar, firmly packed
1 cup white sugar
3 yolks and 2 eggs, beaten
1 cup canned pumpkin
3 cups flour
4 tablespoons baking powder
½ cup sweet milk
¼ teaspoon soda
1 teaspoon vanilla
1 cup chopped nuts

Cream butter, add sugar gradually, then add beaten eggs, and fold in pumpkin. Mix flour and baking powder. Add soda to milk. Add flour mixture alternately with milk and soda mixture to creamed mixture. Stir in flavoring and nuts Bake in three greased 9-inch layer pans at 350 degrees for 30 minutes.

* * *

SWISS CARROT CAKE

4 medium carrots
1¾ cups unblanched almonds or hazelnuts
¾ cup fine dry bread crumbs
½ teaspoon cinnamon
¼ teaspoon cloves
six eggs
1¼ cups sugar
Rind and juice of 1 lemon

Grease a 9 inch spring form pan and line bottom with waxed paper. Grease the paper and coat bottom and sides with additional bread crumbs Start your oven at 350 degrees or moder-

(From page 9)

ate.

Or grease and line the bottom of a 10 inch tube pan with waxed paper. Grease the paper.

Grate carrots (you should have ⅔ cup, firmly packed), grind nuts fine Mix carrots, nuts, bread crumbs, spices together in a large mixing bowl. (Note. no flour needed —bread crumbs, take its place.) Separate yolks from whites of eggs. Beat yolks, sugar, lemon rind and juice diligently until they look thick and creamy Use a rotary or electric mixer. Now beat whites until they hold a peak. Stir yolk mixtures into carrot mixture Fold or mix egg whites in gently until all white patches disappear.

Spoon into pan. Bake 45 to 60 minutes or until cake tester comes out dry when tested in center of cake. Cool Remove from pan. This delicious delicacy tastes even better when mellowed 2 to 3 days.

To be really traditional, spoon a glaze made from two cups confectioners' sugar, 4 to 4½ tablespoons water and ½ teaspoon lemon extract over the top of the cake. Then make little golden carrots from almond paste (recipe in most general cookbooks) and rim the cake with these miniatures.

* * *

7-MINUTE CARAMEL FROSTING

3 egg whites, unbeaten
2¼ cups brown sugar
½ cup cold water
Dash of salt

Add ingredients together in top of double boiler and beat until blended. Now cook over boiling water until frosting stands in peaks. Add flavoring—you can use vanilla or maple, if you prefer. Frost cake when cake is cool

* * *

FRENCH TOAST

3 eggs, slightly beaten
½ teaspoon salt
1 teaspoon sugar
1 cup milk
6 to 8 slices (2 to 3-day old) bread
Fat for frying

Combine eggs, salt, sugar and milk in shallow dish. Dip bread in egg mixture turning to moisten. Brown on 1 side on well-greased griddle or frying pan, turn and brown the other side. Add fat as necessary to keep from sticking Serve with crisp bacon. Makes 6 servings.

* * *

EGG DROP SOUP

Heat one 10½ ounce can chicken rice soup. Drop one raw egg into hot soup and stir immediately. Serve.

OR—Heat 8 or 10 ounces chicken broth. Drop 1 raw egg into hot broth and stir immediately. Serve with or without grated cheese sprinkled on top or soup.

* * *

GERMAN HAM SPAGHETTI

8 ounces spaghetti
1 cup milk
2½ ounces gruyere cheese, diced
2 eggs, beaten
2 cups chopped cooked ham
1 tablespoon minced parsley

Cook spaghetti. Drain and place in lightly greased 2-quart casserole. Scald milk, add cheese and heat until cheese melts. Pour a little of the milk into the beaten eggs, stirring constantly Add egg and milk mixture to remaining milk and stir Add ham. Pour mixture over spaghetti in casserole and mix lightly and thoroughly. Top with minced parsley Bake in moderate oven (350 degrees) for 20 minutes until browned and bubbly. Makes 4 to 6 servings.

Farmer: "You're the laziest man I ever saw. Isn't there a single thing you are quick at?"

Hired Man: "Yes, I get tired quick"

Tailor: "How would you like a belt in the back and a cuff on the pants?"

Tough customer: "And how would you like a sock on the jaw?"

Dairy Day

(From page 1)

system and a poor one. He also explained how dairymen can check the vacuum systems and the milker units on their own farms to be sure the system is working efficiently and not injuring the cows.

Better Housekeeping in the Dairy Herd was the subject of a discussion panel of area dairymen. Participating in the panel, moderated by County agent, M. M. Smith, were the following owners of high producing dairy herds: Kenneth Shoemaker, Kirkwood; Ezra M. Martin, Ephrata R1; Herman Stebbins, York R5, and Howard Weiss, Myerstown R2.

4-H award

Florence Mae Flory, Manheim R3, received an award for efficient 4-H dairy production from the National Dairy Products Association

The award, consisting of a bronze plaque and a check for $25.00, was one of four awarded to 4-H members in the state. Miss Flory was selected for the award on the basis of information on a standard 4-H achievement form

Other dairy specialists and their subjects were — John E Baylor, Pennsylvania State University extension agronomist. "Producing Quality Forage Crops"

—Roger Grout, PSU extension agricultural engineer, "Materials Handling of Farm Crops."

—Fred H. Hughes, PSU extension agricultural economist, "Economics of Dairy Expansion"

—Dr C William Pierce tural Economics, "The Dairy PSU Department of Agricul- Outlook"

PENN STATE'S Mobile Milking Machine Unit was demonstrated at Lancaster county Dairy Day Friday Shown here with the machine is Ivan Parkin, Extension Dairy Specialist from the University

Town & Country Business Club Is Organized

David Lapp, Bareville R1, was elected president of the newly-organized Town and Country Business Club Tuesday night.

Other officers elected were vice president Donald Musser, Mount Joy R1; secretary, Florence Mae Flory, Manheim R3 and Treasurer, Elvin Hess, Bareville R1.

The new club, under the auspices of the Agricultural Extension Service and 4-H club workers, will study the functions of marketing agricultural products

Adult leaders are Richard Lefever, Quarryville Ri, Harold Mangle, Strasburg, Jack Owen, Editor of Lancaster Farming and Victor Plastow, associate County Agent.

Tom Piper, Extension Marketing Specialist for South Central Pennsylvania, was the main speaker at the organizational meeting.

A series of 10 more meetings and tours of county businesses is scheduled for the summer months.

● Harry S. Sloat

(From page 1)

who can also see the big picture of Farm Management." he said.

Sloat came to Lancaster as Farm Management Specialist fresh out of Penn State. Six years later he became assistant county agent, and in '41 was made the first Associate County Agent in the state.

Roy B. Herr, veteran poultryman of Lancaster R7; David M. Landis, seed corn grower of Lancaster R6; David C. Witmer, poultry and general farmer of Mt. Joy, and Carl Schuldt, manager of Masonic Home Farms, of Elizabethtown were among these expressing their gratitude to Sloat for his aid and assistance through the years.

B Snavely Garber, on behalf of the extension association presented Sloat with a book of 78 testimonial letters from friends and associates

Acting for the group in attendance, Levi Brubaker, presented a camera, projector and screen to Mr. and Mrs. Sloat. Photography has been one of Sloat's hobbies.

Mrs. Jane Nolt presented a purse of money to Mrs Sloat from the Farm Women's societies of the county.

Other presentations were made by Pennsylvania Power and Light Co, The Lancaster County Floral Association, and The Pennsylvania County Agents Association.

Willis Z. Esbenshade was in charge of the meeting. Toastmaster was William H Wilson.

Sloat said the future holds some relaxing, visiting friends, doing those things he never seemed to have time for before - and seeing some of the county. He said he and Mrs. Sloat plan to continue living in Lancaster County.

OFFICERS OF THE NEWLY ORGANIZED Town and Country Business Club are, left to right, president, David Lapp; vice president, Donald Musser; secretary, Florence Mae Flory, and treasurer, Elvin Hess —L F. Photo
